

Buzz Buzz Beeme offers effortless gameplay for iPhone and iPad

Bug Me Games announces that Buzz Buzz Beeme is available as a free-to-play game for iOS on the Apple App Store.

GOFFSTOWN, NH – April 16, 2016. Bug Me Games launches Buzz Buzz Beeme, their first free-to-play and free-to-win puzzle/strategy game. Help Beeme pollinate flowers in his gardens to score points and bonuses. The five gardens consist of twenty levels each with ten puzzles for a total of one thousand puzzles. The solution to each puzzle is found by moving pollen from one flower to another to get particular flowers to bloom.

Buzz Buzz Beeme is unlike other puzzle games that force you to finish under an ever looming count-down-clock or pit your few lives against overwhelming enemy odds. Effortless gameplay means no time limits are set in solving any puzzle, but bonuses are achieved by how quickly you can finish and the difficulty of the particular puzzle. The puzzles themselves are low-stress, deceptively simple and yet quite challenging. Not dependent on superior motor skills, Buzz Buzz Beeme is a fun and relaxing way to spend some downtime and can be played by anyone from kids to adults.

- Buzz Buzz Beeme comes with 1000 puzzles!
- Pollinate flowers to solve the puzzles.
- Dress up Beeme in the latest hive fashions!
- Earn honey to buy weapons and clothes.
- Get extra points for getting past flower guards.
- Get tools to help you pass the guards.
- Free-to-Play, Free-to-Win!

Paul Keefe, founding member of Bug Me Games, said, “I wanted to design a game that anyone can enjoy no matter their skill level.”
